MINING, BUSINESS AND STOCKS

WEST TINTIC DEAL EFFECTED.

An Eastern Crowd Gains Control Of the Silver-Copper King Company's Ground,

LARGE LEDGES ON PROPERTY.

William Groesbeck Will be Manager And Work Will be Started at Once at the Mine.

Yesterday a deal was effected it this city by which the Silver-Copper King Mining company of West Tintic disposed of all of its property. The company was formed several years ago group, which consists of nine patented claims. A great deal of fine ore was reported at the time, some of which ran as high as 40 ounces in silver and 13 per cent lead. William Groesbeck. acting for eastern people is the purchaser, the consideration being \$50,000, made in equal quarterly payments. Mr. Groesbeck says that his people are ready and that work will be started at the property at once and continued until the veins, which are exposed on the surface, have been fully explored.

DALY-WEST ON THE WANE. Stocks in General Had a Happier Tone On the Exchange This Morning.

The morning on the exchange was made sensational by a big jump in Daly-West. So great was the raise in the stock that it added over \$1,000,000 to the value of the mine's capital. The stock began its asseat on the regular call and was bid up to \$44.50, later oring a sale on the open board at 6.50. This raise of nearty \$5 per share is a rare experience on the exchange, Daly-Judge is still upon the slide and sold down to \$8.45, a steady fall from \$9.00, at which the first sale of the day was effected. Con. Mercur on the contrary got into the hands of the bulls, and was pushed up 90 cents a spice of and was pushed up 90 cents, a raise of nearly 20 cents within the past three days. The remainder of the stocks felt a slight raise, the market closing as

NEW LEVEL AT THE STOCKTON A Drift to be Run East and West on the 700-Foot Level.

Manager Trenam of the Stockton mine Stockton who returned yester-day brings a fine report from that property. While he was at the mine a double station was started at the 700-foot level and drifting will be started at once east and drifting will be started at once east and west from the shaft.

Mr. Treman said that he was expecting sensational developments on the 600 level as the drift was nearing the vein which was opened up on the 500 level and which showed such exceptional values.

The frame of the Honorine mill is loom-ing up and the work is being pushed and he thought that the mill would be in commission upon schedule time. He said that the Stockton mine was under contract to supply needed ores to the mill and it would be ready no matter how much would be required.

CHERRY CREEK ITEMS.

How Work is Progressing at That Nearby Nevada Camp.

Assessment work on nearly all the Assessment work on nearly all the outside claims in the district is being performed by the claim owners, who are making an effort to comply with the laws, says the Cherry Creek Miner. The McKinley company is performing the usual amount of work at the Saxton with no sensational discoveries or difference, in the character of the Saxton with no sensational discoveries or difference in the character of the ore. Over on the Jupiter the strike of gold ore made last week in the south tunnel continues to hold its own, with each day's work showing up a larger body. At the White Pine Copper company's Ruth group the work still consists of drifting in the ore body on the 300 and 500-foot levels, and the deling of assessment work on the other claims in the group. The New York & Nevada Copper company is performing the regular order of work on the Copper Flat property, besides having several men employed in perfecting the title to several of the company's outside holdings. The Gi-

pany's outside holdings. . . The Giroux company at Pilot Knob is pushing developments on the Morris and Alta shafts below the 200 and 100 levels. Drifting from the 450 level of the Giroux shaft and 150 level of the Taylor roux shaft and 150 level of the Taylor shaft is making good progress with the workings in both places in an excellent grade of copper ore. Several fine surface showings of copper and gold ore have been opened up on other claims in the company's holding while performing the assessment work.

ALTMAN TO THE FRONT.

Irrepressible Colonel Forms a Big Company in Montana.

Col. Henry Altman is doing things in Montana, according to reports which come down from the north. His latest move is the formation of a \$3,000,000 company, which will develop a large area of gold-copper land near the Monarea of gold-copper land near the Montana capital city. There is a large copper-gold bearing zone running through the property, from which ore averaging as high as \$2,000 per ton heben extracted. Col. Altman has both Montana and New York parties associated with him.

A NEW MAJESTIC PRESIDENT

Wm. B. Muchlow is Replaced by a New York Man.

A telegram received by Mr. A. B. Lewis from New York, has brought word of a change in the presidency of the Majestic company. William B. Mucklow has stepped down and out and his place has been taken by a son of A. G. Loomis, vice president of the National City Bank of New York city. No word yet confirming the change has been received at the local office of the company, but Mr. Alexander said he had no reason to doubt its truth. A telegram received by Mr. A. B.

PASSES BEYOND PROSPECT STAGE.

The Lost Packer of Loon Creek, Idaho, Has Been Developed Into a Mine.

CONTAINS HIGH AVERAGE OF ORE

The Number Two Level Has Determined The Continuity of the Ore Bodies For at Least 740 Feet.

J. A. Czizek, president and general marager of the Lost Packer mine, on Loon creek, who has been visiting in the city for several days, is very enthusiastic over the prospects on that creek, says the Boise Capitol News.

The Lost Packer has passed from the stage of a mere prospect to that of a recognized mine. During the summer 100 tons of high grade ore have been shipped, from the mine to the smelter in Salt Lake. None of the ore shipped has returned less than \$150 to the ton and from that figure to over \$300. In addition to that which has been shipped they have about 300 tons piled on the dumps which will run from \$60 to \$80 which will be worked next summer as soon as a mill has been installed. A shipment of this ore has just been made to Salt Lake, to determine the best process for work-

work on No. 3 tunnel has been com-menced. It will have to be run in 1,403 menced. It will have to be run in 1,40) feet to tap the known ore body at a depth of 750 feet. The tunnel is being run on the vein and some high grade ore is expected to be taken out as the work progresses. The No. 1 tunnel cuts the ore body at a depth of 100 feet, and the No. 2 tunnel at a depth of 300 feet. In speaking of the property yesterday Mr. Czizek said:

"The No. 2 level has determined the continuity of the ore shoot and makes it a mine instead of a prospect. The No. 3 will make it famous and merk it as one of the greatest mines in Idaho or the northwest. Nothing under the 100-foot level runs less than \$10) to the ton.

to the ton. "Our last shipment for this season is "Our last shipment for this season is now on the way to the smelter, our mules have been turned out and we will devote all our time this winter to development work. Next summer we shall increase our pack train to 30 mules for taking out ore. We contemplate constructing a wagon road next summer to the mine. We have not determined whether we will construct it. summer to the mine. We have not de-termined whether we will construct it from Custer or from Stanley Basin, The latter course would be much better for Boise, as it would insure the trade of that country for this city. If we go by Custer it means that the trade goes to Salt Lake.

GOLD FIND IN MONTANA.

Ore of Exceptional Value Discovered in An Abandoned Prospect.

An Abandoned Prospect.

(Special to the "News.")

Butte, Mont., Nov. 19.—A new gold strike which gives much promise has been made on the slope of Gold Flint mountain, near Clancym, Jefferson county. The discovery was made by a prospector named W. Brown, while he was crawling through an old and deserted claim. A considerable portion of the side of the tunnel had coved in revealing a streak of ore about 10 inches wide in which free gold could easily be seen. Assays from the streak shows values of about four cunces of gold and over 60 of sliver, making a ton of the rock worth in the neighborhood of \$130.

The claim on which Brown made his The claim on which Brown made his discovery has been abandoned for a number of years its original owners having given up work in disgust believing the property to be worthless.

New Rate on Ore.

A new rate of \$13 per ton on ore has been made from Cherry Creek, Nevada, to Salt Lake by the Southern Pacific, if the same is shipped by the way of

PLANT FOR DALY-WEST.

A Seven Thousand Dollar One Installed

By the General Electric Co The General Electric company has The General Electric company has installed a 100 kilowat, three phase, 60 cycle generator at the Daly-West mine for supplying power to the new silme plant, and to the crushing machin ry that is to be added to the present mill; also, for supplying fluid for lighting the mill and mine, and for the surface plant of the Quincy mine. The value of the new plant is \$7,000.

IDAHO HAS THE TIN.

Ledge Assaying 13 Per Cent in This Metal Discovered.

The good people of Lemhi county, Idaho, are at the present time some-what excited over the discovery of time what excited over the discovery of tin in paying quantities near Salmon city. About a year ago, N. J. Andrews and J. M. Langsdrof located a gold mine in the neighborhood of Salmon. The owners for some time have suspected that there was something else in the ore except the usual gold and iron. Some weeks ago they sent samples of the ore to be assayed and the returns showed 13 per cent tin. Keeping their discovery quiet they located 15 claims upon the ledge. Since the discovery has been made public there has been a rush of prospectors in the neighborhood and two square miles of the country has been staked out. The discovery has been staked out. two square miles of the country has been staked out. The discoverers will push development at their mines.

PERUVIAN TO RESUME.

Manager Clays to Begin Operations During the Coming Week.

The Peruvian at Alta will be opened p within the next few days. Manager as said last evening that all preparations were made and that he would leave for the mine the first of the com-ing week. During the winter work will be solely directed to the tunnel, which be solely directed to the tunnel, which is being run to catch the vein. After this is accomplished an upraise will be made, and a drift-back be cut to pick up the ledge from which rich ore was being extracted when the disastrous slide was met with some time ago. When the mine was closed down, owing to the sickness of Mr. Clays, the face of the tunnel was deeply conversationed. of the tunnel was deeply copper stained, which leads him to believe that he is nearing the ledge. There are many thousands of tons of low grade ore exposed in the mine, but very little high grade. It is not thought that any shipping will be done before spring.

ping will be done before spring. Ore and Bullion.

McCornick & Co. reported ore and bullion settlements yesterday amount-

ing in all to \$59.100. Of this amount the silver, lead, gold and copper ores gave \$29,600, leaving \$29,500 for base buillon.

GUNNISON SILVER-GOLD ORE. Sanpete County Strike Which is Apt to Reach Big Proportions.

A valuable find of ore has been located in the hills about a mile east of the Gunnison station of the R. G. W. The property was discovered by Harrison Edwards and Frank Peterson of Sterling. The ore runs about \$12.50 in Gold and \$12.00 in silver and a higher but unknown quantity in lead. The vein is about 15 feet in depth and the owners are jubilant. They have run a short distance tunnel, and after a short distance tunnel, and after thoroughly demonstrating the value, will organize a company and begin

Mining in this locality has never amounted to much except in coal and sait and if valuable minerals shall de-velop it will be a good thing for the

It is said this vein is part of one that It is said this vein is part of one that extends for 45 miles from Sterling in a southern direction beyond Dry Creek in Sevier county. It breaks out in several places including Calina canyon, Gooseberry creek, near Salina, at-Glenwood, above Anabella near Monroe and at Dry Creek. Each place shows the same general character of minerals and some day, experts believe a rich country will develop in mining for Sevier county, as well as its other for Sevier county, as well as its other

AT THE SILVER KING CON. The New Plant Completed and Put in Commission Yesterday.

Solon Spiro of the Silver King Consolidated Park City, returned from a trip to the mine last night. Mr. Spiro says that the new plant at the mine is at last completed and was put in commission yesterday. The new hoist is working finely and from now on the work of sixting and different and the same control of the same control work of sinking and difting will go on much easier and swifter. He says that everything at the mine is looking fine.

CONCENTRATES.

D. C. Jackling, manager of the Utah Copper company, has gone to Denver. W. Mont Ferry of the Liberty mine s home from an extended trip to the east.

reported at the Taylor and Brunton

Capt. McVichie was very much pleased with what he saw at Bingham yesterday.

The last car load of Utah, Fish Springs ore, assayed 123 ounces in sil-ver and 48½ per cent lead. There are 150 tons of \$12 rock going through the Annie Laurie mill every

Tony Jacobson of the Columbus is at the mine and will not return until this evening.

An amount of high grade ore is coming in the ledge which was recently struck in the Wolverine.

The Galena King people at Stockton are progressing finely with their hoist. It will be ready to be put in commission some time in December.

Horace Andrews who has been examining the Honerine at Stockton, ex-presses himself as astonished at the amount of ore in the mine.

Foreman Ferguson of the New York reports a steady improvement in that property. All the energy of the man-agement is concentrated on the 400-foot level to tap the yeln which showed up so finely on the 300.

Manager F. W. Muhlenbauch of the Juno, at Stockton, is in the city for a few days. He says that the Honerin tunnel is slowly draining the mine, and that he will be able to develop at great-

Choss-cutting has begun at the Comstock, Park City. A station has been cut on the 450-foot level and drifting to the vein will be started at once. Supt. Hickey thinks that it will take about 120 feet of tunneling to reach the

MARKET SHOWS IMPROVMENT

Dealings'in Stocks at Opening Carried Prices to a Higher Level All Around.

SUCAR WAS VERY FEVERISH.

Demand for Stocks Fed by Realizing Sales-Obsecure Properties Were Rushed Up.

New York, Nov. 19.-Opening dealings in stocks carried prices to a fractionally higher level all round. Sugar was feverish, opening up a quarter, declining over a point, and rallying a fraction. The demand for stocks aroused by yesterday's exhibition of strength was fed by th realizing sales of the traders. Pennsylvania, Baltimore & Ohio, Eric, United States Steel preferred and the Pacifics all fell slightly below yesterday's closing. Prices were well sustained but did not advance and the market became intensely

vance and the market became intensely dull. Northwestern preferred rose 3 and Denver & Rio Grande preferred. Wabash preferred and Colorado Fuel about a point, International Power fell 4 and Rubber Goods preferred and Westinghouse Electric a point.

Bonds at noon were steady.

A spasmodic demand for the active leaders soon petered out and the traders took hold of obscure stocks to encourage a following. General Electric was lifted 5 points, Minneapolis & St. Louis 4, Westinghouse Electric 3, Biscuit 24. Pacific Coast 2 and Locomotive, Smelting and a few other low-priced stocks a point or more. Pacific Mail and New York Central fell off about 2 points. The rise in Amalgamated was followed by an improvement in St. Paul, but was without general effect. St. Paul rose 1%. Colorado Fuel gained 2, and Continental Tobacco preferred and St. Louis Southwestern about a point. American Hide and Leather preferred gained 3 points.

LOCAL MARKETS.

Turkey Selling at from 22 to 25 Cents -Eggs Are Strong.

There promises to be higher prices in fish by another week, as the weather is unfavorable for fishing of the Pacific coast, and there is a growing scarcity in the market. Salmon which has been selling for the last two weeks at 15 cents will go up. Halibut, too, would rise in price, only people stop buying halibut when it gets above 15 cents, so that the dealers are not likely to put up the figure. Turkey is good and plenty, dealers selling at 22 to 25 cents. But eggs are on the soar, and eastern eggs are selling here \$2 per case more than they were 10 days ago. case more than they were 10 days ago. In New York eggs are bringing 32 cents, and 28 cents in Chicago. The fall of 10 cents in flour was noted in the "News" two days ago. The prices obtaining today, in the Salt Lake markets are as follows:

ARRIVE SALT LAKE CITY:

A Cosy Car

has a lounging-room twenty feet long, brilliantly lighted, and furnished with easy chairs, a writing desk, magazines, periodicals, etc., and a well-stocked buffet. In the rear is a broad platform protected by brass rails, where you can sit and watch the scenery while the Special hums over the rails at sixty miles an hour.

And there is something to see in the mountains of Colorado and the fertile plains of Nebraska, Iówa and Illinois.

and Illinois.

The Chicago Special leaves Denver at 4:15 p. m. every day, and all lines into Denver run trains to connect with it. Another high grade flyer for Chicago leaves Denver at 445 p. m. 9.45 p. m.

The St. Louis Special leaves Denver at 2:00 p. m., and the evening train at 9:45 p. m. Write me for particulars.
